

Outdoor Economics CONFERENCE

Wetland Protection Project on the Rio Fernando

Date: October 5, 2022

Time: 8 AM - Noon

Fred Baca Park , 301 Cam Del Medio, Taos

Lunch will be served

Gloves, tools, hard hats will be provided. If you plan to participate, please rsvp to Darien Fernandez at dfernandez@taosgov.com or call (575) 779-1478

The service project will involve installing two beaver deceivers in the Rio Fernando at the Town of Taos' Fred Baca Park. The beaver deceivers will allow water to flow through the Rio Fernando without the need to destroy the beaver dams, which help promote a diverse ecosystem at Fred Baca and it's neighboring Rio Fernando Park.

This service project was designed and supported by the Taos Land Trust and YCC crew, and the Rio Fernando de Taos Revitalization Collaborative
